

Electric propagator

Seed & plant raising made easy

Safety Notice

- Always use an RCD (circuit breaker)
- Use indoors and avoid excessively wet areas
- Do not immerse in water
- Avoid damage to the base or water may reach electrical components
- Keep out of reach of children and animals

Positioning

Stand the propagator in good light but out of strong direct sunlight. Avoid very warm rooms.

Temperature Control

This appliance has a fixed power output designed to provide gentle heat for plant propagation. The temperature achieved can be varied by:

- Moving the propagator to a warmer or cooler room
- Opening or closing the vents
- Turning on or off to avoid excessively hot or cold periods

The use of a propagator thermometer is recommended.

Helpful Hints

Follow the instructions on seed packets and other plant raising equipment.

Use good quality compost

This propagator is suitable for other seed trays and inserts.

Water plants carefully, especially in the early stages, to avoid fungal damage such as 'damping off'.

Helpline Number

If you have any problems or queries with this product please call our helpline on +44 (0)1406 372227 between the hours of 9am to 5.30pm Monday to Friday.

Maintenance and cleaning

Cleaning occasionally is important to avoid disease problems - use a damp cloth – never immerse in water.

Use non-abrasive cleaners if necessary.

When not in use, store dry and out of direct sunlight.

Conforms to European standards on health, safety and the environment.
